Meeting space

Introduction

CommsLabs Meeting space is based on a free/libre open source project called BigBlueButton and can be considered an alternative to Zoom.

Apart from the features described on this page, BigBlueButton offers other features that are described in their official website.

Hybrid event planning

To learn more about hybrid event planning and how to hold and facilitate hybrid convenings/events check Hybrid events guide 101 published by APC.

Guide

Wondering how to use BigBlueButton? Check out the Meeting space guide.
