Roadmap & Workplan

Resources which help guide the planning and implementation of CommsLabs include a visual timeline of milestones that can be embedded and updated, a high-level planning document for organizing milestones, and a collaborative workplan for tracking activities throughout the process. Additionally, there's a coordination and resources plan that outlines team roles, commitments, and key activities for the successful execution of CommsLabs.

- Milestones Timeline Visual: a high-level timeline visual of CommsLabs milestones. The google slide can be embedded into other gdocs. The source deck can be updated and if embedded, the embed can be refreshed in other docs to reflect changes.
- Milestones High Level Planning: a guiding doc for high-level planning of CommsLabs milestones. Each step can be further expanded or reduced based on time available and resources.
- Workplan & Tracking Implementation: CommsLabs coordination team's collaborative space for identifying, documenting, and tracking activities throughout the planning and implementation process. It includes workplan and tracking worksheets.
- High Level Coordination & Resources Plan: a high-level plan outlining the teams to form for CommsLabs, including a description of the team role, anticipated commitment, and key activities the team leads.
