# Safety & Security

Safety and security was addressed through tools for identifying and addressing potential concerns, including a scenario planning template for in-person gatherings. A travel safety template captures important local information, emergency contacts, and action plans. Samples include travel tips and safety guidelines.

- Safety and Security Scenario Planning: a tool to identify, rate and address potential safety and security concerns before they happen. This template focuses primarily on in-person gatherings, but can be extended to communications or other areas there may be safety concerns.
- Travel Safety & Tips: template (starting point) for capturing important (and convenience-related) local travel information including city and accommodations information, emergency contacts, advice and emergency action plans.
- Samples:
  - Dominican Republic Travel Tips & Safety:
  - Mindset Kenya Travel Tips & Safety
